

Sampling of
Key WSDOT
Projects
at Risk

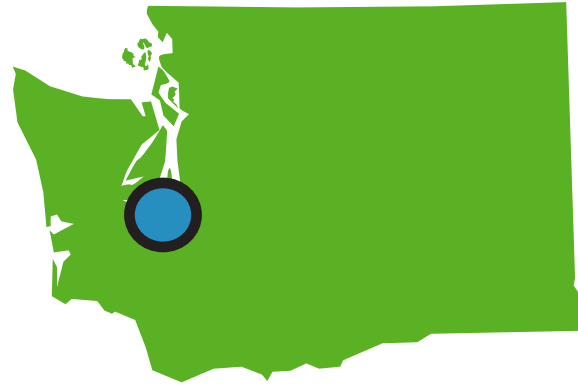

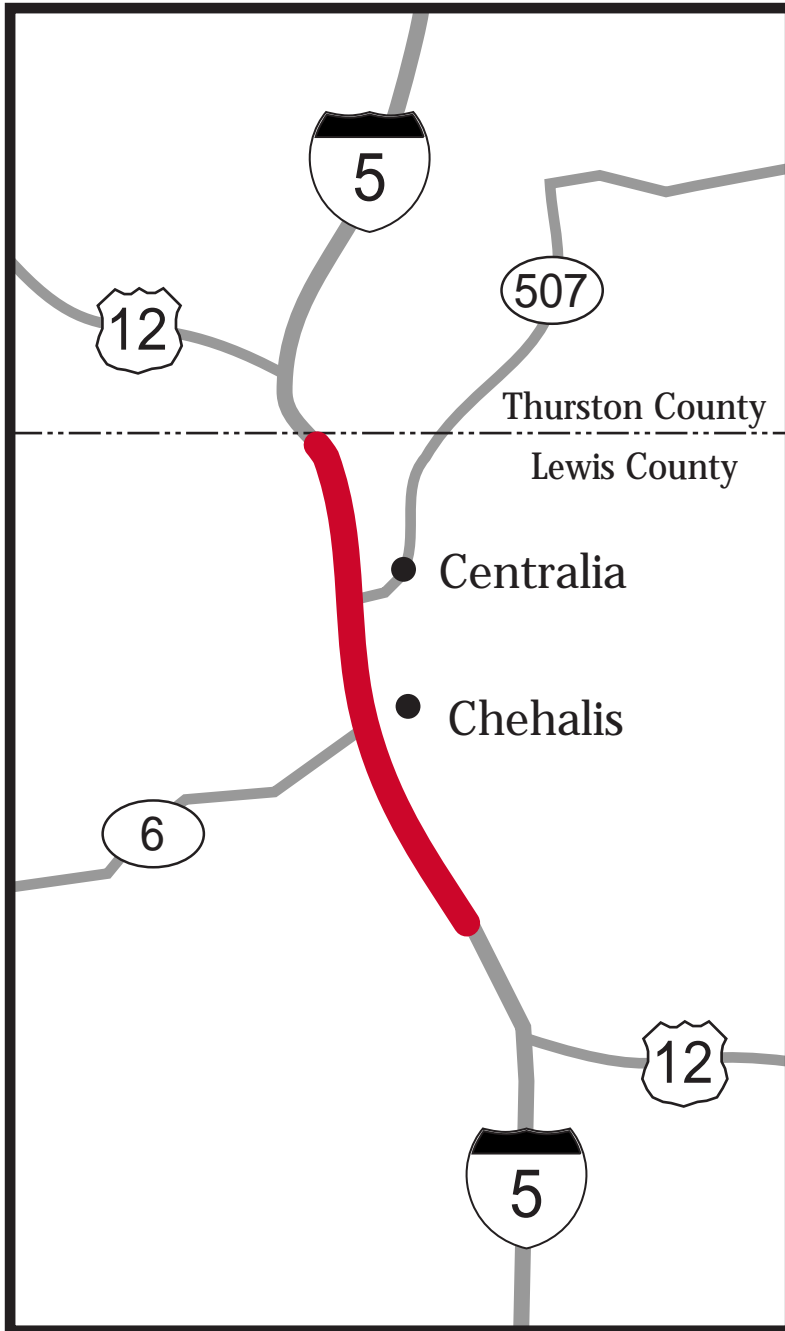

Interstate 405

Improve the I-405 corridor by adding lanes, transit, and improving travel demand management. The project will reduce congestion and air pollution.

Washington State
Department of Transportation

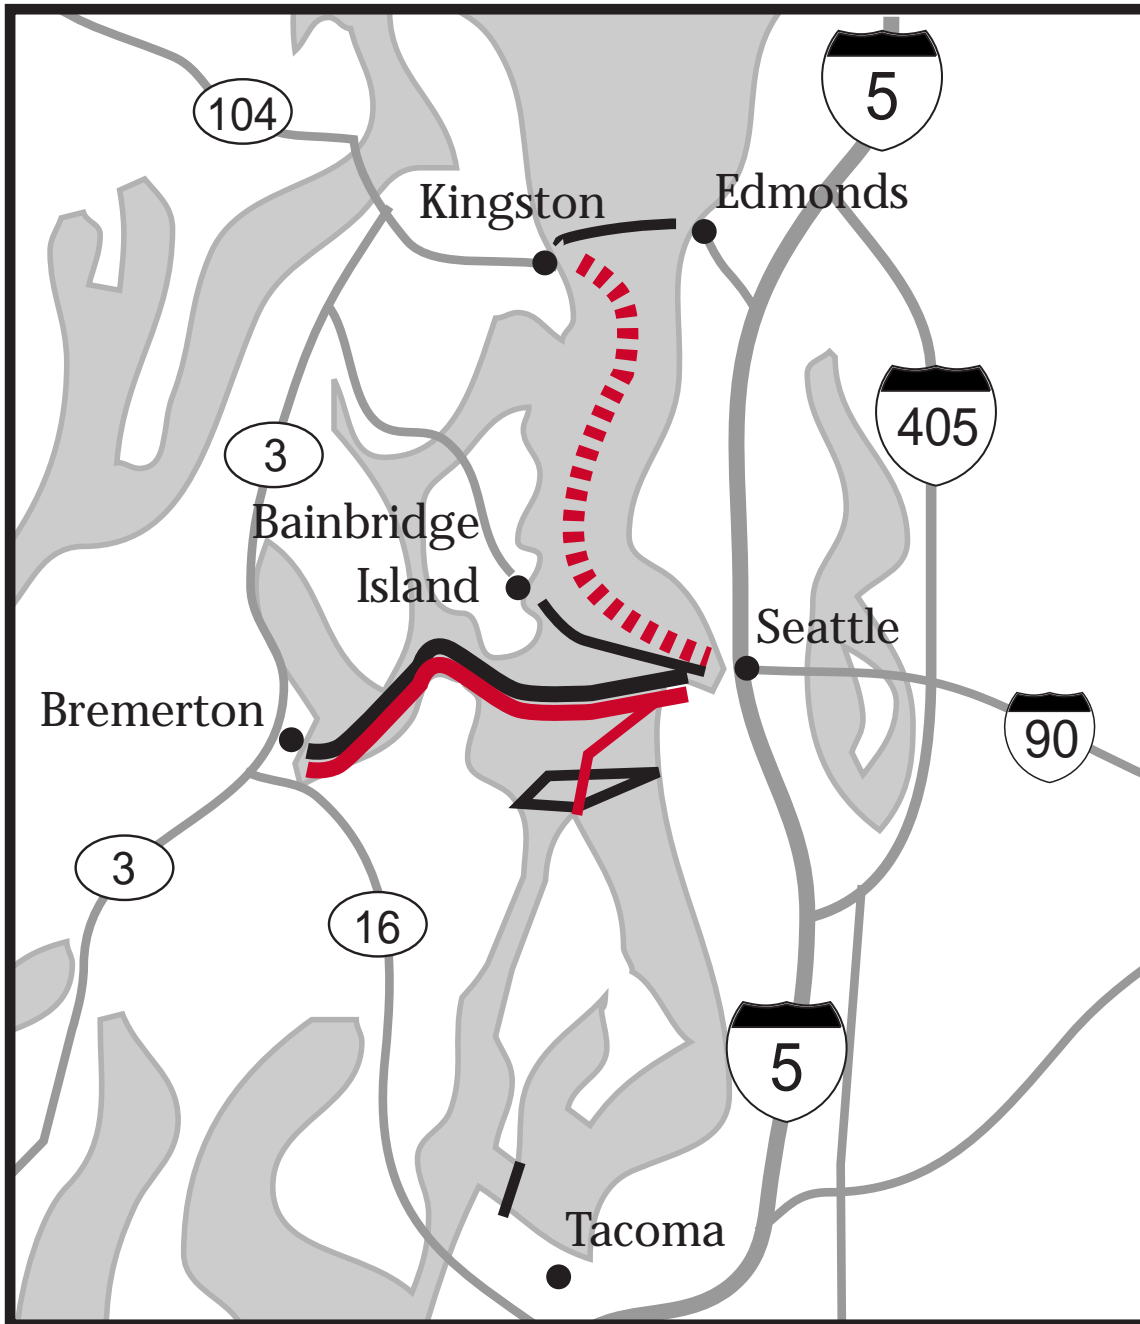

Interstate 5

Widen the highway to six lanes to ease congestion, improve safety and reduce air quality impacts.

Ferry Projects

Adding passenger-only service from Kingston to Seattle will reduce demand for auto ferries on the Seattle/Bainbridge and Kingston/Edmonds runs, and will reduce the number of vehicles on I-5 from Edmonds to Seattle.

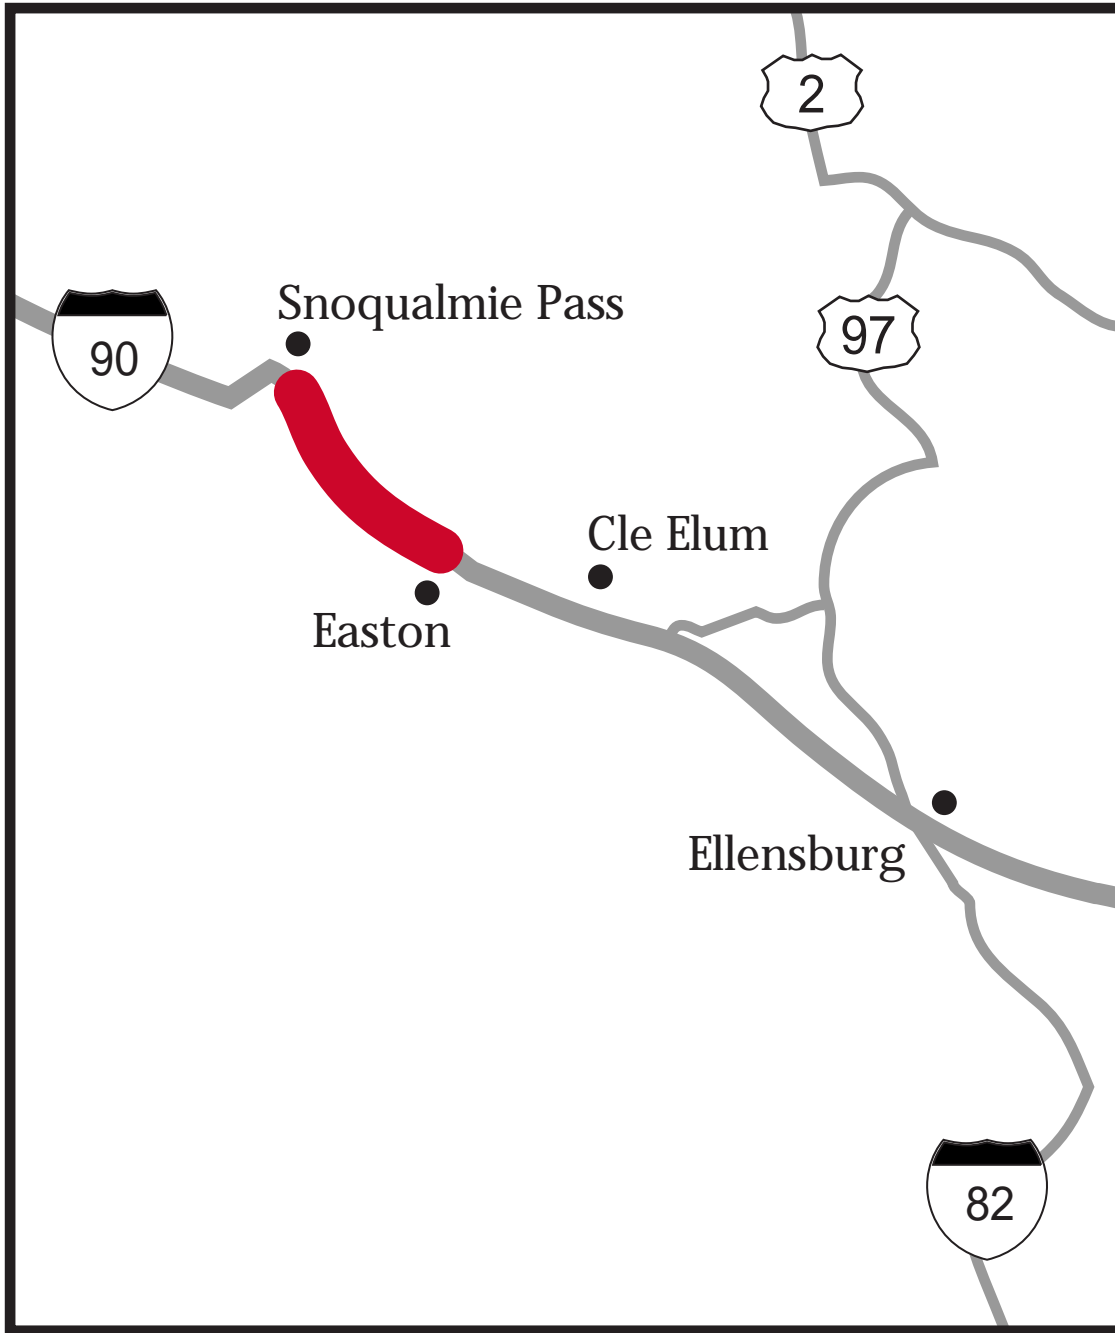

Car Ferries

Passenger-Only Ferries

Washington State
Department of Transportation

Interstate 90

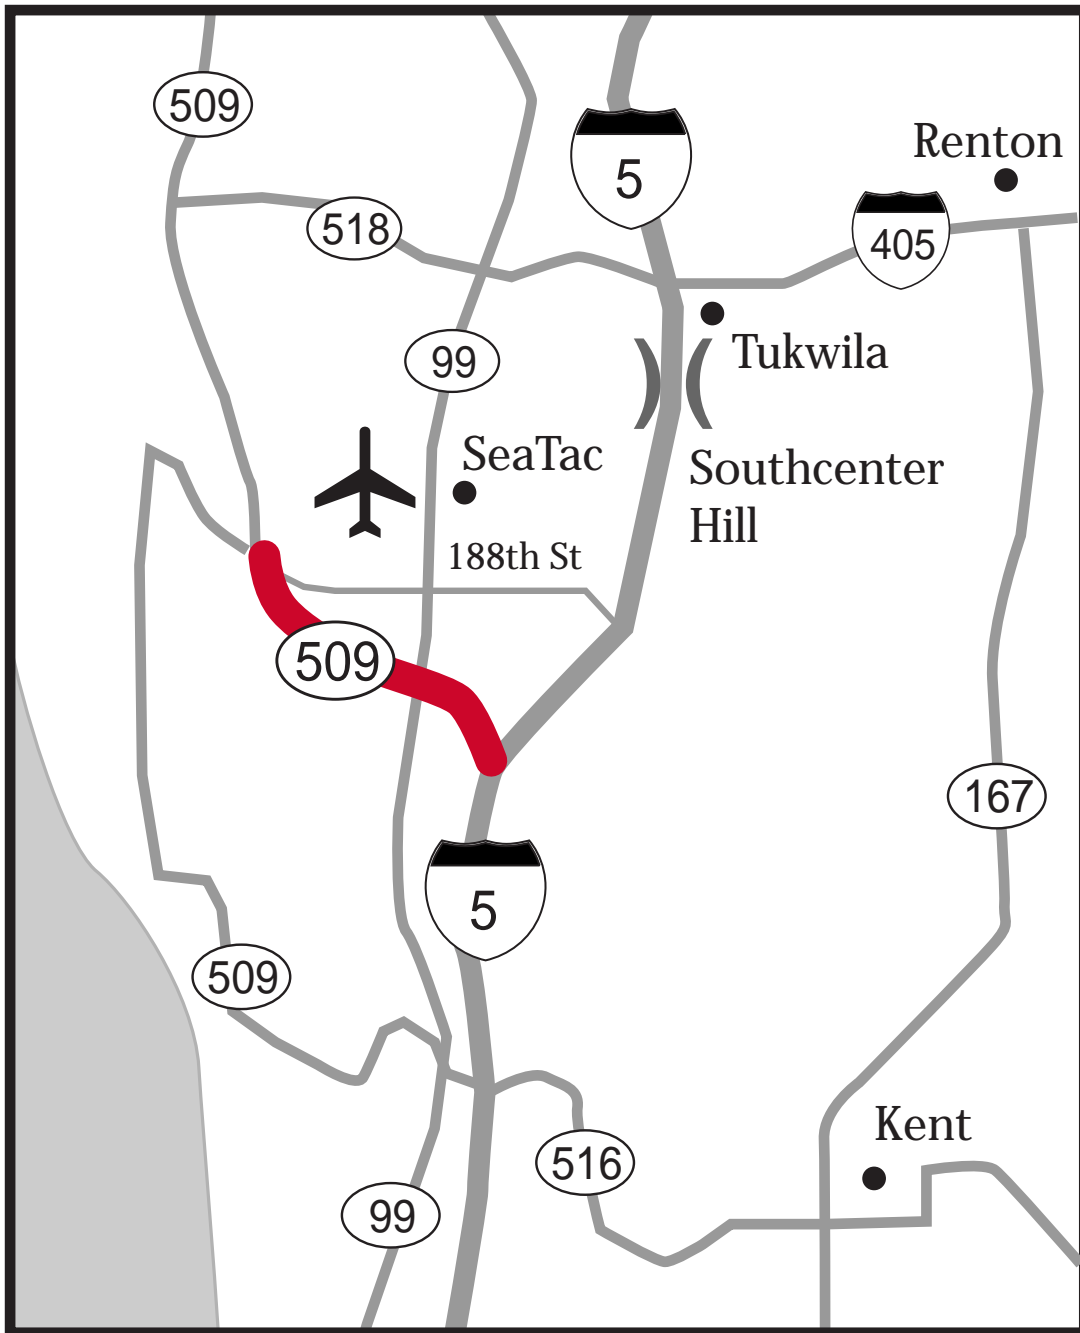

Widen the Interstate to
improve safety.

**Washington State
Department of Transportation**

State Route 509

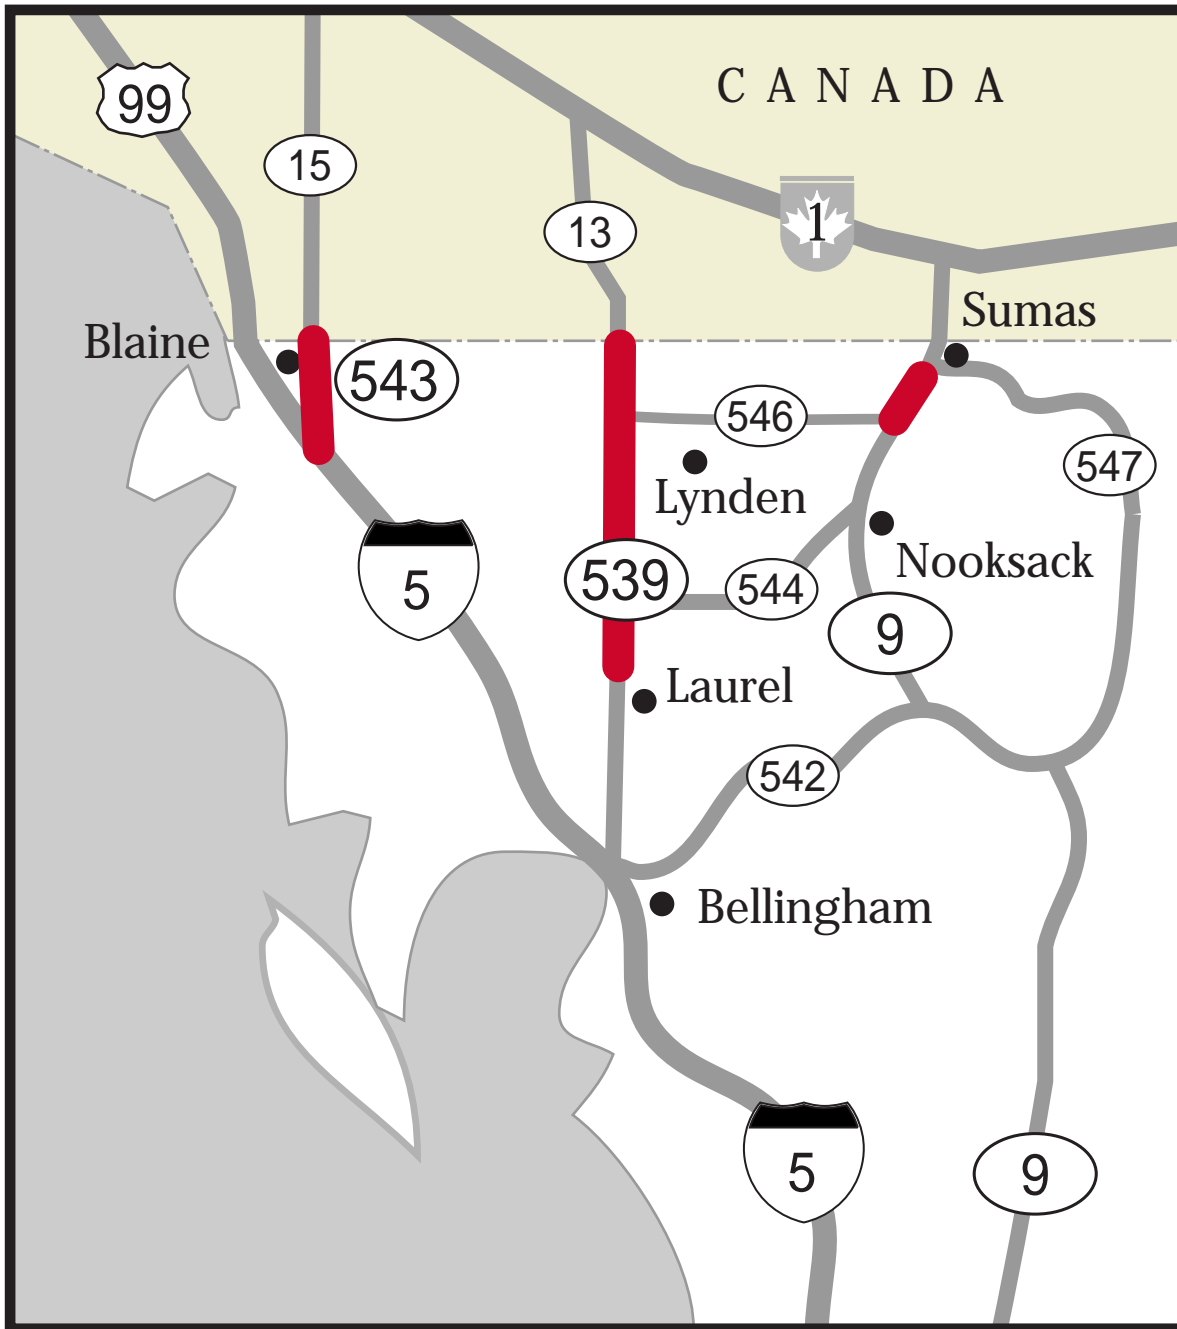

Finishing this freeway will divert traffic from I-5, provide a southern access to SeaTac International Airport, move freight off I-5, and relieve congestion on the Southcenter Hill.

Washington State
Department of Transportation

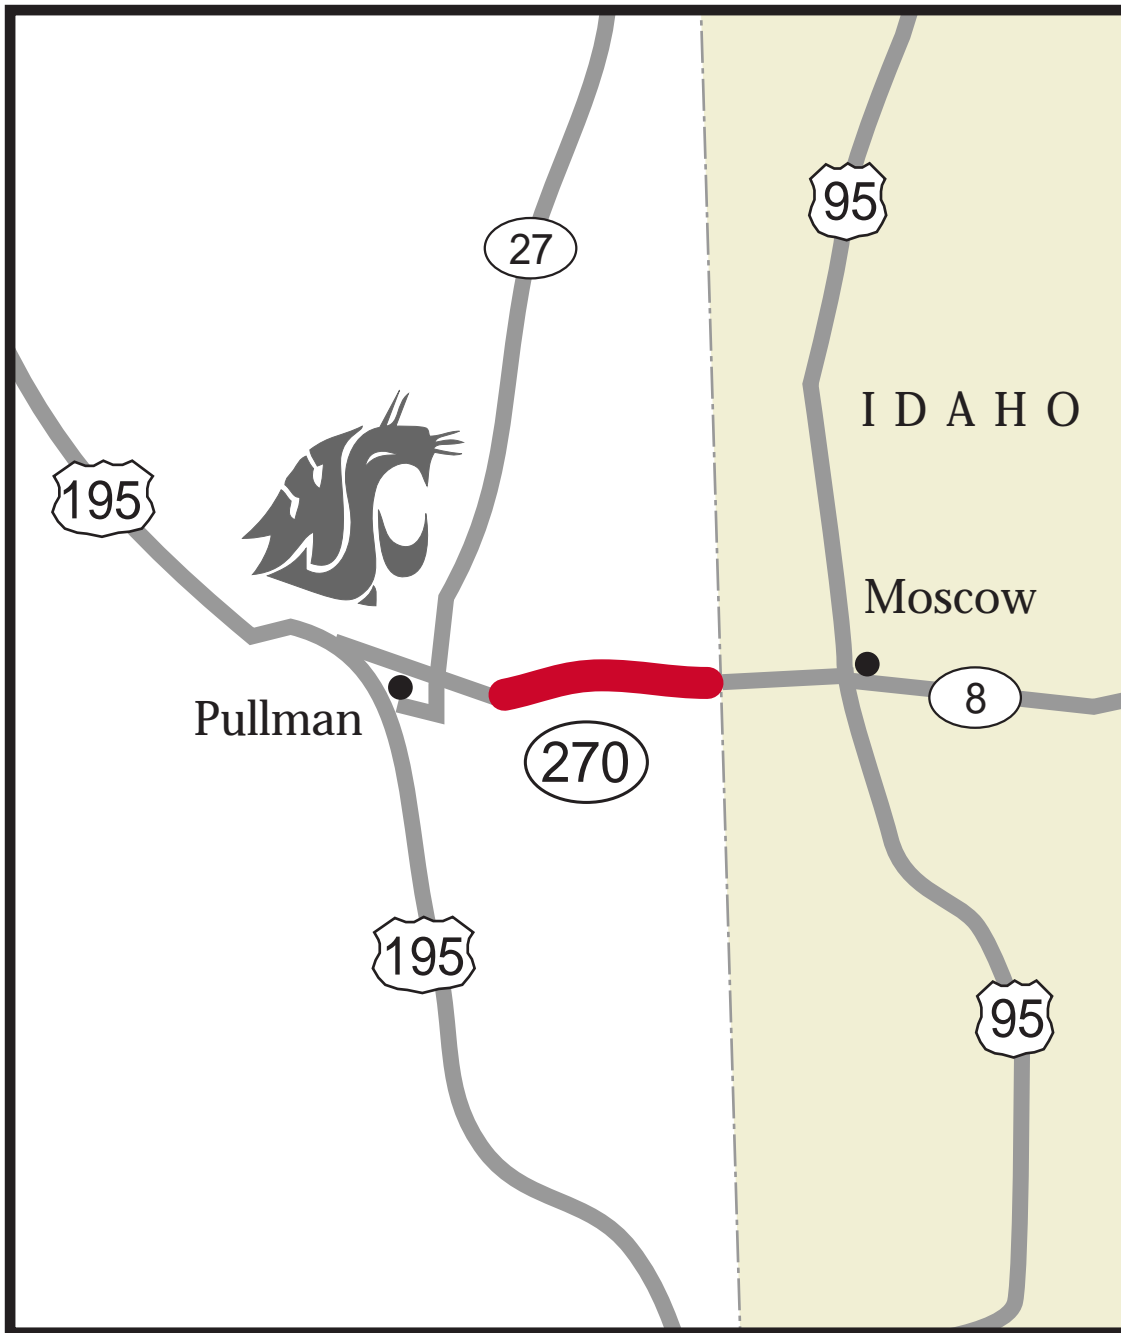

State Routes 9, 539 and 543

Provide an all-weather highway for truck traffic, move freight faster, and improve safety.

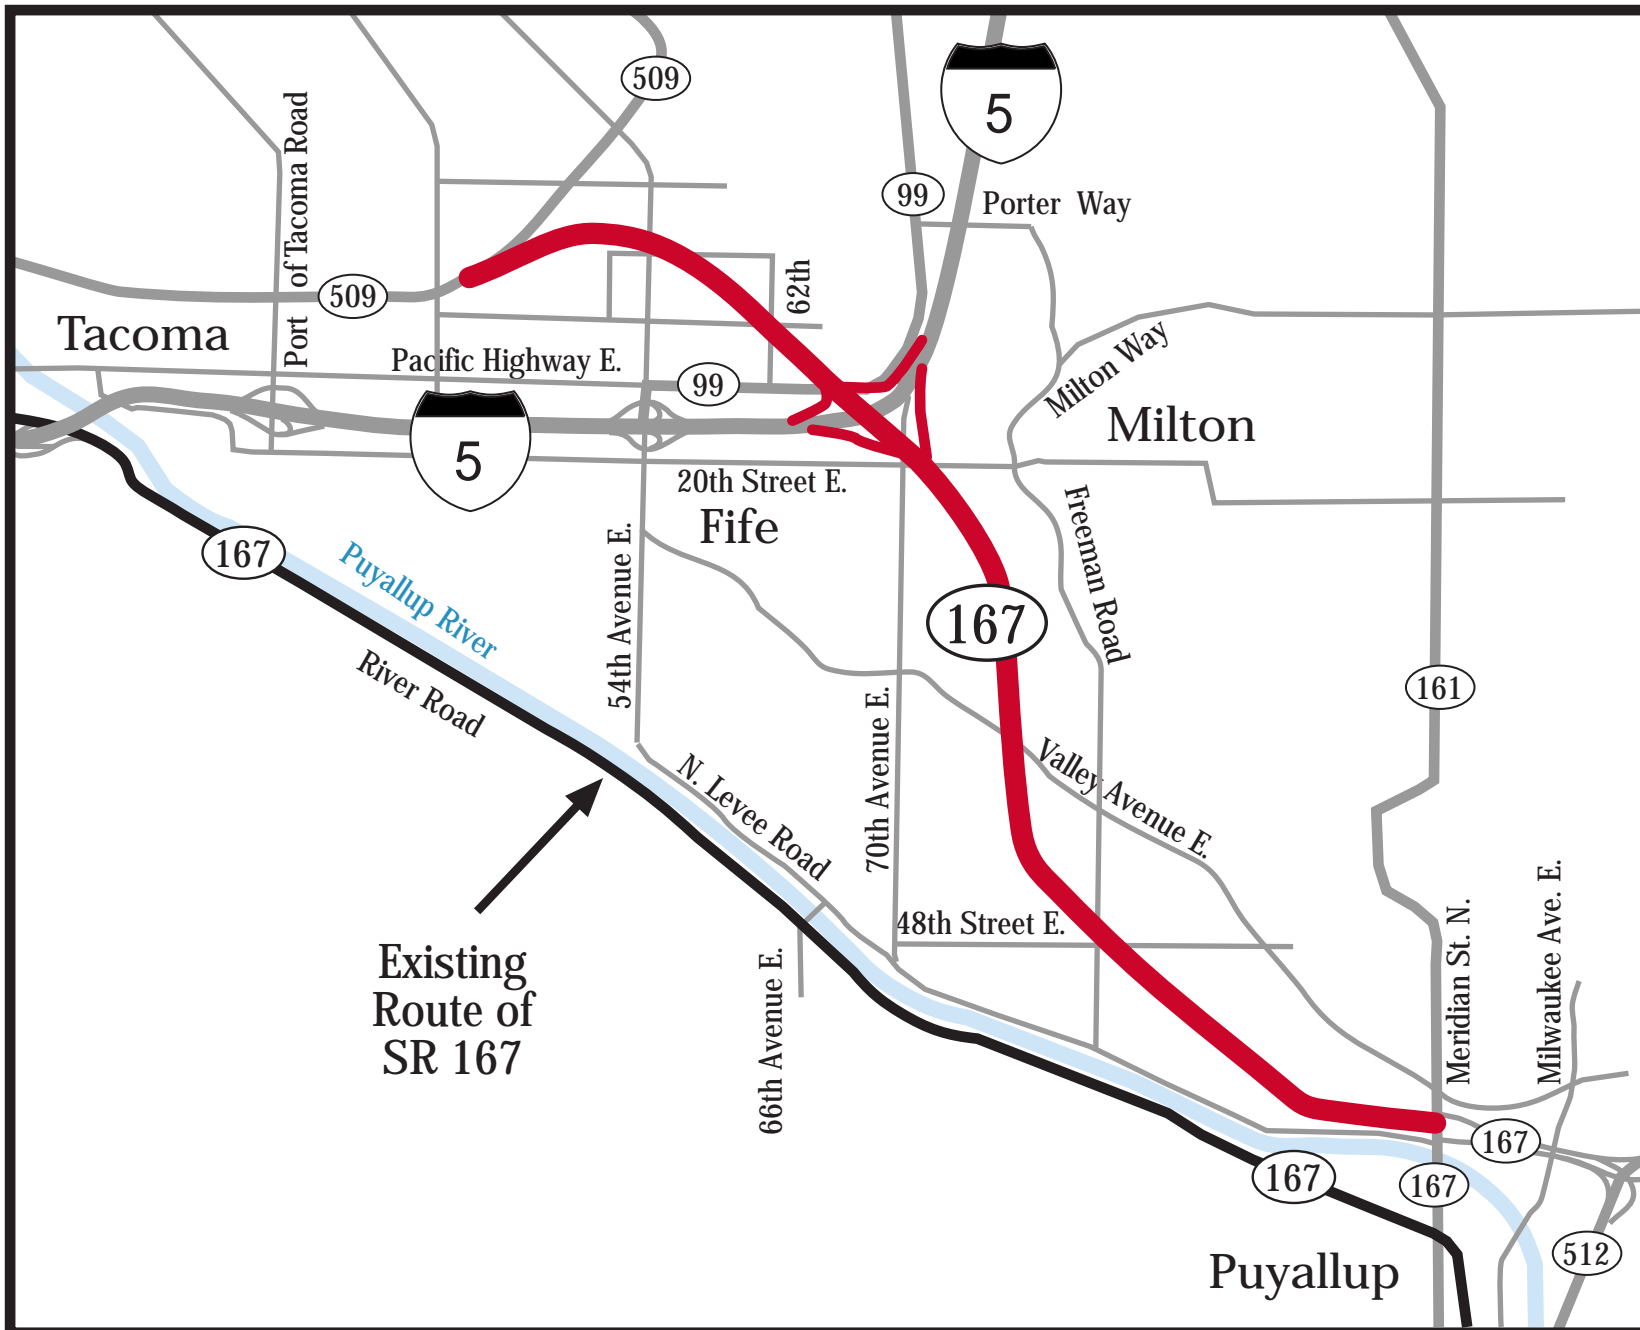

State Route 270

This “killer-highway” will be made into a 4-lane divided highway, which will greatly improve safety.

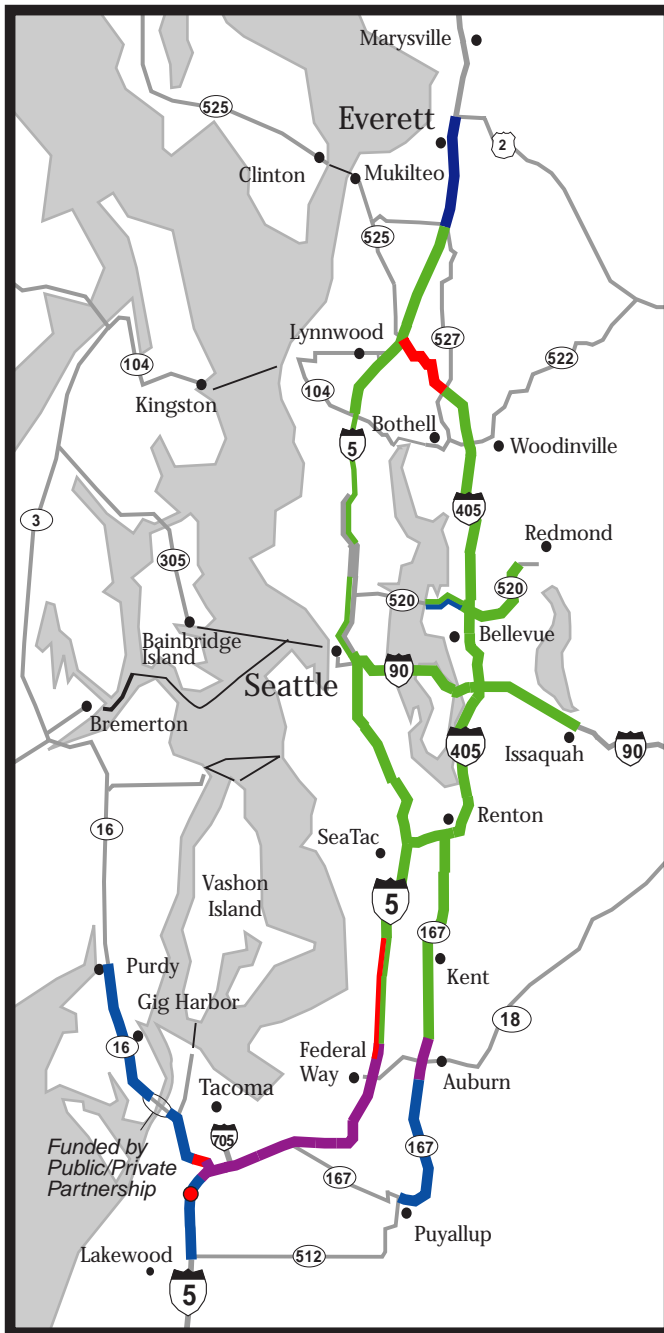

State Route 167

Build a new freeway from Fife to Puyallup to reduce congestion and accidents, and to move trucks and freight more efficiently.

Puget Sound HOV Lanes

Finishing the HOV system will save the typical driver in the afternoon rush up to 27 percent of his or her commute time.

Open to Traffic

Under Construction

Design Underway or Complete,
Construction Unfunded

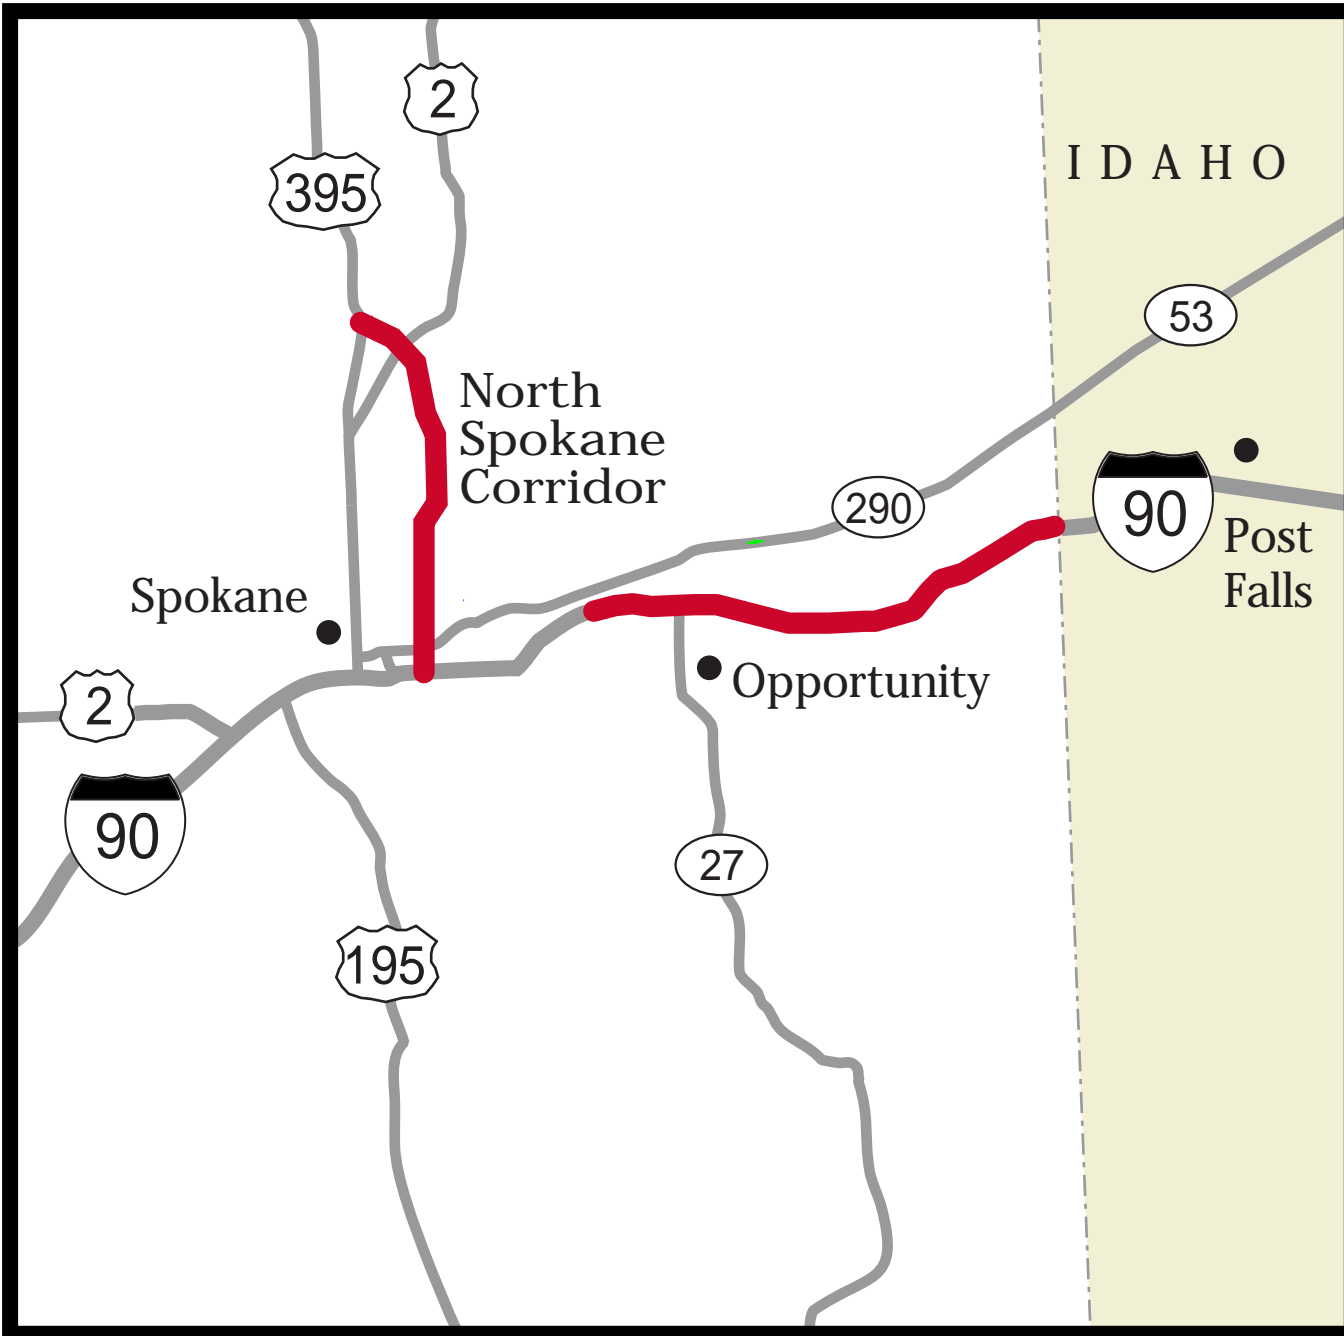

Design and
Construction Unfunded

Washington State
Department of Transportation

Interstate 90 North Spokane Corridor

The project will relieve congestion
and improve safety.
